

# THE TANG SOO DO ACADEMY SKILLS CERTIFICATES

These certificates will be awarded upon completion of a seminar (levels: Basic/ Intermediate/Advanced/ Elite) at one of our academy locations in Korea or upon documented proof of aptitude in the appropriate skill area and at a certain level of competency. If earned during a seminar they are discounted and added to the seminar fee, but if applied for outside of the traditional training the fees will be \$50 - \$100- \$150 - \$200 respectively.

The members who complete “Elite“ levels in a skill area will be mentioned on our federation website and mentioned briefly in our newsletter. In some cases they may be considered for positions in our federation or to aid in seminars outside Korea.

All of these fields taught are useful additions to the professional martial artists resume but exist outside the traditional Tang Soo Do (or most arts’) scope. This will help bring recognition to the blood, sweat and tears given to those who master these skillsets.

The professors of the Tang Soo Do Academy, in addition to being senior members of the federation in Korea, are masters in their own chosen disciplines and fields of study.

## THE SKILL AREAS ARE AS FOLLOWS:
